Zigmond, L. A., 101

SUBJECT INDEX TO VOLUME 45

Acetylcholinesterase in channel catfish brains, effects of phosphorothionates on, 325
Acrylic acid, disposition and metabolism of, 291

Benzine effects on rat liver, 481

Cadmium
  effects on bone repair in rats, 235
  effects on fish, 235
  and monoisoamyl *meso*-2,3-dimercaptosuccinate, 261
Catfish brain tissue, effects of phosphorothionates on, 325
Coal slags' fibrogenic potentials, 349

Diethylstilbestrol, hepatic effects of, 47
Diisopropyl fluorophosphate effects on various rat strains, 59
Dimethylarsinic acid, percutaneous absorption of, 279

Ethanol effects on styrene metabolism in perfused rat liver, 439

Fibrogenic potentials of coal slags, 349

Halokane-induced hepato- and nephrotoxicity, 465
2,5-hexanedione, effects of, 313

Itai-itai and cadmium, 249

Lead, assessment of risk to birds, 369

Menadione effects on mitochondrial calcium, 489
Metallothionein effects on macrophage functions, 397
Methylmercuric chloride, maternal and fetal toxicity of, 415
Micronucleus assay, mutagenicity, and carcinogenicity, 337

Nasal inflammatory responses to pollution, 427
NO_2 effect on rabbits sensitized with *C. albicans*, 75
Nuclear magnetic resonance imaging and trifluoromethane, 221

Phenobarbital, hepatic effects of, 47
Phosphorothionates, effects of, 325
Polycyclic aromatic hydrocarbons, effects on cell signaling, 101
Protein kinase C levels, effect of xenobiotics on, 47
Pyrroles in rat hair proteins, 313

Quinolones, toxicity of, 1

Reference dose approach for risk assessment, 87
Risk assessment
  for lead in birds, 369
  using reference dose approach, 87

SO_2 effect on rabbits sensitized with *C. albicans*, 75
Strain differences and cholinesterase inhibition, 59

Testosterone metabolism, effect of xenobiotics on, 47
Tobacco smoke effects on (–)-*trans*-benzo[a]-pyrene-7,8-dihydrodiol metabolism, 453
Toxicological screening
  comparison of results, 211
  developmental toxicity, 145
  neurobehavioral toxicity, 173
  systemic toxicity, 127
Trifluoromethane, neurobehavioral and physiologic effects of, 221

Uncertainty factors for deriving reference dose, 87
